

MiniLink® Application Note

#1 Wireless Video & Audio System

Notes:

MiniLink 5.8 GHz 1000 ft point-to-point wireless video and audio link System also capable of 2500 ft, 1 mile and 4 mile ranges with larger receive antennas. Configurations would include a 6-inch patch antenna with integrated LNB for a 2500 ft system, an 18-inch dish with LNB for a 1-mile system and a 1-meter dish with LNB for a 4-mile system.

The transmitter requires an environmental enclosure for outdoor or harsh environment use. The LNB is weatherproof and does not require an enclosure.

See MicroTek Accessories sheet for enclosure specifications and antenna specifications.
