KBC Networks Joins Forces with Lund Halsey & Christie Digital Systems for Intersec 2010

London, UK 06 January 2010: KBC Networks will join forces with Lund Halsey and Christie Digital Systems at Intersec 2010, held from 17-19 January at the Dubai International Convention and Exhibition Centre. The three companies will combine stands 4-720c, 4-722c and 4-621-c to form a single stand area in order to showcase their products working together within a control room set-up. On the joint stand Lund Halsey, Christie Digital Systems and KBC will demonstrate technical furniture solutions; digital display systems, and video, audio and data transmission equipment respectively.

Owen Price, KBC Networks Sales Manager for the Middle East commented, "Intersec always gives us a great chance to meet and catch up with our customers. This year, it will also allow our customers to find out more about each of the three companies and how our products fit together within a security system."

The trio's stand will feature a 2 wide by 2 high video wall using 50" cubes and image processing along with examples of the Centra Command Console from Lund Halsey and a range of KBC's fibre optic, wireless and networking transmission products.
