

Rugged Connectivity Uncompromising Reliability

Industrial Network Switches, Media Converters & SFP Modules for your most demanding environments.

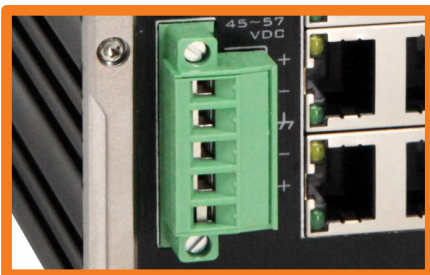

When your operations depend on constant data flow, you can't afford network downtime. KBC's robust networking solutions are intelligently engineered for mission-critical applications, ensuring your systems stay online, no matter what the environment is.

Engineered for harsh conditions, KBC solutions ensure your network stays online. They are built with rugged enclosures to withstand extreme temperatures, simplify installations to reduce costs, and offer flexible power and SFP options, including PoE++ up to 90W and 10G connectivity to perfectly fit your application needs.

TRANSPORTATION | SECURITY & SURVEILLANCE | INDUSTRIAL AUTOMATION | ENERGY & UTILITIES

Dual Power Input

9-36VDC Low voltage input and 45-57VDC dual input power options

PoE/PoE+/PoE++

PoE options up to 90W as well as low voltage PoE solutions

SFP Options

Up to 24 SFP ports, combo port options, 10/100, Gigabit and 10G.

Network Switches

Media Converters

SFP Modules
